**To General Director of
Corrocoat Caspian LLP
Mrs. Aliya Zhumanova**

Recommendation letter

In 2018 for anticorrosive protection of the concrete cell of a wet coagulant solution with an area of 110 m² in the chemical workshop of TPP-3 of PAVLODARENERGO JSC (Pavlodar, the Republic of Kazakhstan), we involved the Corrocoat Caspian LLP company for turnkey work, which proposed new modern systems Polyglass series protective anticorrosive materials of our own production instead of old and ineffective ones.

In 2019 after examining the concrete coating cell, the technologies of Corrocoat Caspian LLP showed excellent chemical resistance, after which it was decided to protect the H-cation exchange filter of the 1st stage No. 7 of the water desalination scheme in the filter room of the chemical workshop No. 4 of the TPP-3 with an area of 66 m² instead of the one used on it earlier gumming technology of crude rubber.

In August 2019 Corrocoat Caspian LLP team performed internal protection of the above filter using Corroglass 600 series coatings to repair ulcers and Polyglass VE coatings of its own production.

Corrocoat Caspian LLP company carries out the necessary routine preparatory work to clean the filter to a metallic luster, to clean the walls of deposits stuck on it, to repair unevenness and ulcerative corrosion, to apply and dry a new coating according to international quality standards, has everything necessary for this certificates of quality management, experience in a similar field, the presence of qualified specialists with certificates of training from the manufacturer of coatings, as well as everything you need to complete iniya works equipment and instrumentation, produces quality tests at intermediate stages of repair, providing all the necessary information on the operation and after their service.

PAVLODARENERGO JSC thanks the team of Corrocoat Caspian LLP for the services rendered to it and hopes for long-term cooperation.

**Head of chemical workshop No. 4 of CHPP-3 of PAVLODARENERGO JSC
Grigoryev O.O.**
